

PRINT INSTRUCTION - Corn Hole Bags

BLEED:

- 1 mm on each side
- leave at least 3 mm between important text and contents and the cut line

TEMPLATE:

download our template, insert your artwork and delete all the guidelines

PDF:

export your file in PDF format in 1:1 scale (not password protected)

COLOURS

All files should be sent in CMYK (cyan, magenta, yellow, black) format with the Fogra 39 colour profile. Images in RGB or with PANTONE colours will be converted automatically using a standard colour separation profile.

The same colour may vary slightly in appearance depending on the media onto which it is printed, as a result of the material's physical composition. For example, natural fabrics absorb much more ink than synthetic fabrics.

RESOLUTION

The optimal resolution for the print files is between 100 and 150 ppi.

ADDITIONAL INFORMATION

The minimum printable line weight is 0.5 pt. This product can only be printed on one side.
